TO WHOM IT MAY CONCERN,

I am writing this letter in concern for Hamedah Hasan. My name is Tera Harris I am a Certified Nurses Assitant for Providence Health System. First I would like to start off by saying I have known Hamedah for 17 years. Hamedah is a exstrodinary person and is very caring for her family and others. She has made mistakes in the past and has learned from her past mistakes . She has did ten years in a institution not only did she do ten years she did it while being a up holding inmate .She has strived to be a parent for her children also while being incarcerated, Kasandra who is 18 years old, Ayesha who is 15 years old and is a mother herself now and Kamira who she delivered while being incarcerated who is know 10 years old. Again I can not stress how this has taken place since she has been locked up. The children love there mother and want there mother home. It would be in the best interest of the children and for Hamedah to be given a second chance at life, to start over again. For her ,her children and her grandchild. So she can be there to teach them right from wrong. I can not stress the importance of her freedom.

Sincerely,

Tera Harris
