RE: Hamedah Hasan

To Whom It May Concern:

I have known Hamedah A. Hasan for nearly 2 decades. I first met Hamedah while she was going through this arduous court process. I followed the case intently, to see what the picture was or would later become. With every step, I was there to support Hamedah. I received a full appreciation and thorough respect for what was to come over the many years.

Hamedah has impacted my life in the following ways. I visit regularly and have seen the growth, personal expression and desire to become a bigger person; despite the situation. Hamedah has remained in constant contact with me updating me on personal strides with major success. Hamedah has far surpassed the expectations of many naysayers, with her countless volunteer efforts within the facility; and outside the facility. Hamedah has improved her personal awareness, without prejudice and bitterness, as you might imagine would not necessarily be the case, for most.

I have really enjoyed seeing and being a part of this process and personal growth. Hamedah has made it her plight to let her situation benefit those she knows, and those who she does not. The diligence Hamedah continues to display is not only Courageous, but Notable!

Sincerely,

Wynde R. Grey
